

2006 CPT / HCPCS Code Updates

State Plan Modality	2005 CPT/HCPCS	2006 CPT/HCPCS	Comments
Psychological Assessment	96100	96101 96102 96103	The psychological testing codes have been expanded to delineate different disciplines administering, interpreting test results and preparing reports. Providers should assign the appropriate code according to the service provided and the corresponding CPT description(s).
Psychological Assessment	96115	96116	Delete 2005 code. Use 2006 code for reporting this service.
Psychological Assessment	96117	96118 96119 96120	The neuropsychological testing codes have been expanded to delineate different disciplines for administering, interpreting test results and preparing reports. Providers should assign the appropriate code according to the CPT description(s).
Medication Management	90782	90772	Delete 2005 code. Use 2006 code for reporting this service.
Rehabilitation Case Management	99261-99263	99231-99233	The codes for follow-up inpatient consultation have been divided into subsequent hospital care and subsequent nursing facility care codes. The definitions for these codes have also been revised. Providers should carefully review the description of each code with assignment of replacement codes in accordance with the service provided.
Individual Treatment Services	99271-99275	Use appropriate E/M Code for the setting and type of service (99241-99245)	Specific codes for confirmatory consultations have not been assigned. Rather the provider should carefully review the E/M Codes currently listed under the State Plan Modality for Individual Treatment Services to determine the setting and type of service provided and then assign an appropriate code according to the service provided.
Intake Evaluation	99301-99303	99304-99306	The 2005 codes for comprehensive nursing facility assessments included both new and established patients and the typical amount of time a physician spent with the patient. The 2006 codes are expanded and divided into initial nursing facility care and subsequent nursing facility care and do not include the amount of time spent with the patient. The provider should carefully review the description of each code with assignment of replacement codes in accordance with the service provided.
Intake Evaluation	99321-99323	99324, 99325, 99327	The 2005 codes have been deleted. The 2006 codes include the typical amount of time a physician spends with the patient and/or family or caregiver. The provider should carefully review the description and assign the appropriate code for the service provided.
Individual Treatment Services	99331-99333	99334-99337	The 2005 codes have been deleted. The 2006 codes include the typical amount of time a physician spends with the patient and/or family or caregiver. The provider should carefully review the description and assign the appropriate code for the service provided.
